

Tiromoana Bush vascular plant species list

Updated to March 2009

Based on records by Jason Butt, Miles Giller, David Norton & Philip Simpson

FERNS:	Status	Threat status	Abun.	Notes
<i>Adiantum cunninghamii</i>			O	
<i>Asplenium appendiculatum</i>			O	
<i>Asplenium bulbiferum</i> SL			R	
<i>Asplenium flabellifolium</i>			O	
<i>Asplenium hookerianum</i> SL			R	
<i>Asplenium lyallii</i>			O	
<i>Asplenium trichomanes</i>			R	
<i>Azolla filiculoides</i>			R	
<i>Blechnum chambersii</i>			R	
<i>Blechnum fluviatile</i>			R	
<i>Blechnum minus</i>			R	
<i>Blechnum novae-zelandiae</i>			R	
<i>Blechnum penna-marina</i>			R	
<i>Blechnum procerum</i>			R	
<i>Blechnum triangularifolium</i>			O	
<i>Botrychium biforme</i>			R	
<i>Dicksonia squarrosa</i>			R	
<i>Dryopteris filix-mas</i>	Naturalised		O	
<i>Grammitis</i> sp.			R	ID to be confirmed
<i>Hypolepis ambigua</i>			O	
<i>Lastreopsis glabella</i>			R	
<i>Microsorium pustulatum</i>			R	
<i>Pellaea rotundifolia</i>			O	
<i>Pneumatopteris pennigera</i>			R	
<i>Polystichum richardii</i>			O	
<i>Pteridium esculentum</i>			O	
<i>Pteris tremula</i>			R	
<i>Pyrrosia eleagnifolia</i>			R	

GYMNOSPERMS:				
<i>Pinus radiata</i>	Naturalised		R	
<i>Podocarpus totara</i>			R	
<i>Prumnopitys taxifolia</i>			R	

ANGIOSPERM TREES AND SHRUBS				
<i>Alectryon excelsus</i>			R	
<i>Aristotelia serrata</i>			R	
<i>Carmichaelia australis</i>			O	
<i>Carpodetus serratus</i>			R	
<i>Coprosma areolata</i>			R	
<i>Coprosma crassifolia</i>			R	
<i>Coprosma lucida</i>			R	
<i>Coprosma propinqua</i>			A	
<i>Coprosma rhamnoides</i>			O	
<i>Coprosma robusta</i>			O	
<i>Coprosma rotundifolia</i>			O	
<i>Coprosma x cunninghamii</i>			R	

Coriaria arborea			R	
Crataegus monogyna	Naturalised		R	
Cyathodes fraseri			R	
Cyathodes juniperina			R	
Cytisus scoparius	Naturalised		O	
Discaria toumatou			A	
Fuchsia excorticata			R	
Griselinia littoralis			R	
Hebe salicifolia			R	
Helichrysum lanceolatum			C	
Hoheria angustifolia			R	
Ileostylus micranthus			O	Recorded parasitising Coppro, Coprha, Melram, Distou
Korthalsella salicornioides		Naturally uncommon	R	Recorded parasitising Kuneri
Kunzea ericoides			A	
Leptspermum scoparium			O	
Leucopogon fasciculatus			R	
Macropiper excelsum			O	
Melicytus ramiflorus			C	
Myoporum laetum			O	
Myrsine australis			O	
Nothofagus solandri var.			R	
Olearia avicenniifolia			R	
Olearia paniculata			O	
Pennantia corymbosa			R	
Pimelea sp			R	
Pittosporum eugenioides			R	
Pittosporum tenuifolium			O	
Prunus sp.				
Pseudopanax arboreus			O	
Pseudopanax crassifolius			O	
Sambucus nigra	Naturalised		R	
Schefflera digitata			R	
Solanum sp.			R	
Sophora microphylla			R	
Tupeia antarctica		Declining	R	Recorded parasitising Psearb
Ulex europaeus	Naturalised		O	
Urtica ferox			R	

ANGIOSPERM VINES				
Calystegia tuguriorum			O	
Clematis afoliata			R	
Clematis foetida			R	
Clematis forsteri			R	
Clematis paniculata			R	
Clematis vitalba	Naturalised		R	
Fuchsia perscandens			R	
Metrosideros diffusa			R	
Muehlenbeckia australis			C	
Muehlenbeckia complexa			C	
Parsonsia capsularis			R	
Parsonsia heterophylla			C	
Rubus cissoides			R	
Rubus schmidelioides			R	

Rubus squarrosus			R	
------------------	--	--	---	--

ANGIOSPERM HERBS - EUDICOTS				
Acaena anserinifolia			R	
Acaena novae-zelandiae			O	
Brachycome radicata			R	
Cardamine debilis agg			O	
Colobanthus sp.			R	
Convolvulus verecundus		Declining	R	
Conyza canadensis	Naturalised		R	
Cotula australis	Naturalised		R	
Dichondra repens			C	
Disphyma australe			R	
Einadia allanii		Naturally uncommon	R	
Epilobium brunnescens			R	
Epilobium rotundifolium			O	
Geranium microphyllum			O	
Geranium molle	Naturalised		O	
Geranium sessiliflorum			R	
Haloragis erecta			R	
Hydrocotyle heteromeria			O	
Hydrocotyle moschata			R	
Hydrocotyle novae-zelandiae			R	
Lagenifera sp			O	
Lagenifera strangulata			R	
Leptinella dioica			R	
Leptinella squalida			C	
Linum monogynum			R	
Marrubium vulgare	Naturalised		R	
Mycelis muralis	Naturalised		R	
Myriophyllum elatinoides (?)			R	
Parietaria debilis			R	
Pelargonium inodorum			R	
Pratia angulata			R	
Pseudognaphalium luteo-			R	
Ranunculus reflexus			O	
Ranunculus trichophyllus (R. fluitans)			R	
Samolus repens			R	
Senecio glaucophyllus			R	
Senecio glomeratus			R	
Senecio lautus			R	
Senecio minimus			R	
Senecio quadridentatus			R	
Spergularia media			R	
Stellaria parviflora			O	
Verbascum thapsus	Naturalised		R	
Viola sp			R	
Vittadinia australis			R	

ANGIOSPERM HERBS - MONOCOTS				
Agrostis capillaris	Naturalised		C	
Anemanthele lessoniana			R	
Anthoxanthum odoratum	Naturalised		O	

Arthropodium candidum			R	
Astelia fragrans			R	
Carex breviculmis			R	
Carex dissita			R	
Carex flagellifera			R	
Carex forsterii			R	
Carex maorica			R	
Carex secta			O	
Carex solandri			R	
Carex sp cf. wakatipu			R	
Carex sp.			O	
Cordyline australis			O	
Cortaderia richardii			R	
Cynosurus cristatus	Naturalised		R	
Dactylis glomerata	Naturalised		O	
Dichelachne sp. (crinita?)			R	
Echinopogon ovatus			R	
Eleocharis acuta			R	
Holcus lanatus	Naturalised			
Isolepis habrus			O	
Isolepis nodosa (Scirpus nodosus)			R	
Juncus articulatus	Naturalised		R	
Juncus distegus			O	
Juncus gregiflorus			R	
Libertia ixioides			R	
Luzula sp			R	
Microlaena stipoides			O	
Microtis sp.			R	
Nematoceras macrantha (Corybas macranthus)			R	
Phormium cookianum			O	
Phormium tenax			R	
Poa cita			O	
Poa imbecilla			C	
Potamogeton cheesemanii			R	
Pterostylis sp			R	
Pterostylis sp (alobula?)			R	
Rytidosperma sp (gracile?)			R	
Rytidosperma sp (unarede?)			R	
Schoenoplectus pungens			R	
Typha orientalis			R	
Uncinia leptostachya			O	
Uncinia scabra			R	
Uncinia uncinata			R	

Treat status follows de Lange et al. 2009. NZ Journal of Botany 47:61-96.
Abundance: A: Abundant, C; Common, O: Occasional, R: Rare.
